Chapter 26, Section 26-311 of the City of Houston’s Code of Ordinances provides for the creation of residential parking permit areas in neighborhoods where excessive commuter parking is deemed a problem for residents. To date, 144 permit areas have been designated.

The Administration and Regulatory Affairs and Public Works and Engineering Departments reviewed applications submitted by area residents. A public hearing was held on March 11, 2015 to discuss and ensure any outstanding issues with the proposed areas were satisfactorily resolved within the community. The required public hearing notice was sent to all addresses within a 200’ boundary of each requested area as well as to the active super neighborhood contacts provided by the Department of Neighborhoods. Notice for the public hearing was also sent to the active civic groups for each of the requested areas. The findings and related regulations for the proposed areas are attached.
