***************************************		The Pew Research Center released on December 3,			
		2020 the results of a national survey conducted Nov.			
		18 to 29 among 12,648 U.S. adults. It found that 71%			
		of those surveyed think the worst of the COVID-19			
		outbreak is still to come, up from 59% who said this			
		in June.			
		AL		1	
		Also, about half of the respondents said (52%) they			
		think hospitals in their area will struggle to handle			
		the number of people seeking treatment for the			
		coronavirus in the coming months and slightly fewer (47%) think their local medical providers will be able			
		to handle the number of patients.			
		to handle the number of patients.			
		Regarding taking a COVID-19 vaccine, the Pew survey			
		also found that Black Americans are much less			
		inclined to get vaccinated than other racial and			
		ethnic groups: 42% would do so, compared with 63%			
		of Hispanic and 61% of White adults. English-			
		speaking Asian Americans are even more likely to say			1
		they would definitely or probably get vaccinated			
		(83%).			
		To address culturally specific reluctance and			
		antipathy to try new medical treatments, the			
		Houston Health Department and Mayor's Health

		This EPO is for Technology Movers, a commercial computer moving service, to transfer the computer equipment being used at the George R. Brown Convention Center for contact tracing and call center activity to the new location at 9250 Kirby Drive. The movers will prep the for the move on 12/18/2020 and complete the move on 12/19/2020. The movers will provide preprinted labels for tagging monitors, CPU or Dock, keyboard bag, printer, etc.; they will disconnect cords and cables, gather cords, keyboard, mouse, and small accessories into large antistatic keyboard bags that get labeled; protect monitors, laptops and other equipment with bubble, blankets or foam sleeves. In the new location, they will unpack, place at the new desk, and reconnect.
