WS1283422286 - Traffic Signal Equipment and Repairs (Traffic Systems Construction, Inc.) - MOTION

Agenda Item#:

Background:

Emergency Purchase Order – (P23-WS1283422286) -Approve spending authority to Traffic Systems Construction, Inc. in an amount not to exceed \$500,000.00 for traffic signal equipment and repairs for Houston Public Works.

Specific Explanation:

The Chief Operating Officer of Houston Public Works (HPW) and the Chief Procurement Officer recommend that City Council approve spending authority in an amount not to exceed \$500,000.00 to **Traffic, Systems Construction, Inc.** for traffic signal equipment and repairs for Houston Public Works.

The Chief Procurement Officer issued an emergency purchase order to Traffic Systems Construction, Inc. on July 10, 2024, to repair and replace traffic signal equipment throughout the City of Houston damaged during the storm event Hurricane Beryl. Traffic and pedestrian signals and associated parts are required to maintain Houston's signalized intersections. Restoring equipment to full functionality ensures an orderly traffic flow for vehicles, motorcycles, bicycles, and pedestrians. The repairs were too extensive for HPW crews. The department does not have a contract for these types of repairs. However, the department is actively working on a procurement for this. The work is expected to be completed by mid-November 2024.

This recommendation is made pursuant to Chapter 252, Section 252.022 (a) (2) of the Texas Local Government Code for exempted procurements, " which provides a procurement necessary to preserve or protect the public health or safety of the municipality's residents."
