

## CITY OF HOUSTON - CITY COUNCIL

Meeting Date: 1/3/2018

ALL

Item Creation Date: 10/23/2017

### L24387 - A1 Hahn Equipment - Small Submersible Pumps Repair Services - ORDINANCE

Agenda Item#: 25.

#### **Summary:**

##### **NOT A REAL CAPTION**

ORDINANCE amending Ordinance No. 2013-0948 for contract between the City of Houston and **HAHN EQUIPMENT COMPANY, INC.** for submersible pump repair services for the Department of Public Works and Engineering Department - \$2,002,401.32 - Enterprise Fund

#### **Background:**

**S74- L24387-A1 – Approve an amending ordinance to increase the maximum contract amount to Contract 4600011984 from \$5,006,003.30 to \$7,008,404.62 for the contract between the City of Houston and Hahn Equipment Company, Inc. for submersible pump repair services for the Department of Public Works and Engineering.**

#### **Specific Explanation:**

The Director of the Department of Public Works and Engineering and the Chief Procurement Officer recommends that City Council approve an amending ordinance to increase the maximum contract amount from \$5,006,003.30 to \$7,008,404.62 for the contract between the City of Houston and Hahn Equipment Company, Inc. for submersible pump repair services for the Department of Public Works and Engineering.

The contract was awarded on October 16, 2013, by Ordinance No. 2013-0948, for a three-year term with two one-year options in an amount of \$5,006,003.30. As a result of split awards, two other small submersible pumps repair services contracts were awarded to Smith Pump Company, Inc and Coastal Pump Services, Inc. Coastal Pump Services, Inc. contract was terminated early, due to unresolved contractor performance issues, and a portion of the submersible pump repair services from the Coastal Pump Services, Inc. contract have been transferred to the Hahn Equipment Company, Inc's contract. Expenditures for Hahn Equipment Company, Inc. as of September 26, 2017, totaled \$4,368,379.35. The remaining spending capacity of \$637,623.95 is insufficient for the remaining terms of the agreement, and for ongoing operational needs. From fiscal year 2016 to present, the Department's expenditures increased significantly, as a result of higher incidences of pump failures and the premature termination of the Coastal Pump Services, Inc. contract. The expenditure is expected to increase further due to recent damages resulting from Hurricane Harvey.

The scope of work requires the contractor to provide all labor, supervision, equipment, facilities, materials, parts, supervision and transportation necessary to disassemble, inspect, and rewind or recondition the submersible pump motors, and reassemble and test the units. The service includes the inspection of all components, and cleaning all parts before rewinding or reconditioning the pumps. After all repairs are made, the contractor is required to balance and test the rotors and impellers at their full voltage to ensure the pump is performing at optimum level. The submersible pumps are crucial to the department's water and wastewater operations, and any interruption in services, predisposes the department to regulatory and compliance penalties and fines. The services are also critical to the City's ability to mitigate exposure to serious public health and safety hazards. The Department has commenced its contract renewal process, and anticipates a new award will be in place by the end of the term.

#### **M/WBE Participation:**

The contract was awarded with a 7.26% goal, and the prime has only achieved 2.78%. The prime listed 8 firms for work opportunities. None of the firms are authorized to perform OEM-related work on the equipment, that will not jeopardize the OEM warranties. The Office of Business Opportunity will continue to monitor this contract to ensure maximum M/WBE participation.

#### **Fiscal Note:**

Funding for this item is included in the FY18 Adopted Budget. Therefore, no Fiscal Note is required as stated in the Financial Policy Ordinance 2014-1078.
