At 2:09 p.m. Mayor Turner requested the City Secretary to call the List of Speakers.

Dr. Alkebu Motapa, 5022 Cosby, 77021, (713)741-5150 had reserved time to speak but was not present when his name was called.

Mr. John Branch, 4430 Castor, 77022, (310)710-4181 appeared and stated that last week they discovered that which he does not know if it came from Fox News, there was some fake news that circulated and the City did own the Independent Heights Police Store Front and from further investigation from himself and team discovered that it was under the Harris County Appraisal District and that the City does own that property, the property was bought and paid for in 1993 and the building started in 1994 and opened in 1995, it is a 2 part building, they got in touch with a land developer that was in the neighborhood and the building had 2 parts where it can be taken apart and moved, if they see it fit not to keep their word to make it Community Center for them and they ask that the Community receives the building and he believes that the Mayor is a man of his word and the Mayor has stated that he is looking forward to developing it to be a Community Center and he is looking forward for that to take place. Council Member Stardig absent.

Mayor Turner stated he is looking forward to working with him and Council Member Cisneros on it and it had been taken off the Agenda and they are going to work to make it work to be a Community Center and that depends of available revenue and for the time being it is not on the sale list.

Rev. Dave Welch, 34218 Sanders Ranch Rd., Magnolia, TX, 77355, (713)459-9164 appeared and presented information and stated that he is Director of the Houston Area Pastor Council and he wanted to put something in front of Council that is deeply troubling and in the packet that they have received is the article from the Chronicle which he sure that they are all well aware of that the Houston Police Chief Art Avecedo went to Austin to testify against the protection of the privacy of women and children in the State of Texas and there are variety of things that are deeply troubling about this action and he is going to specifically speak on that and number one, he is new to the City of Houston but Council is not and the citizen of this City had addressed this issue very expressly with a 61% to 39% vote in 2015 and they actually care about and want the privacy of women and children to be protected and they defeated an Ordinance that would have created a threat to that and what they do know now that this situation is not new to Houston and there are other Cities that are dealing with this, these are just samples of the very language of what is defined to be gender identity is different from City to City, there is no definition and because of that it literally leaves nothing except for a persons own determined state of mind to legally give themselves the latitude to declare whatever they want to be at any given moment and that is a

threat to the privacy and safety of women and children that are 99% not confused about that and they do need Legislation to set fourth and to create a State wide standard, the Chief was dead wrong and more than that it is deeply troubling that he used his badge of the Police Department, of the City of Houston to act as a Lobbyist against Legislation and Public policy and that is a complete violation of trust that was placed by him by the people and by the Officers of the Department and many of them he has heard from, it creates divisions in the City, in the Department and it creates confusion by using Police, Power and Authority in that position to violate the trust of the citizens that clearly had already said it is unacceptable and unnecessary and he calls upon the Mayor to advocate for a position opposite of what the voters have determined that they chose that he does not have or authorize the Chief of Police to do so and he did say publicly that he did not go at the Mayor's request.

Mayor Turner stated that he appreciates his comment and respect him for his view and just like him, he has every right to express that view and Chief Avecedo had every right to express his view in Austin and he was not the only one, there were a number of Police Chiefs across the State that went to Austin to express their view and as he knew that he had spoken out against that Bill himself, it was not inconsistent and he had no problem with him going there to speak against the Bill as quite the number of CEOs in the City of Houston.

Members of Council questioned Rev. Welch at lengthy.

Mr. Rodney Underwood, 6636 Bellfort, (832)868-7219 appeared and stated that he is Uplift Development, a community based organization and his concerns are now assessing funds to be used for the development and rate for affordable housing in their neighborhoods and he had read many articles about having funds available but there seem to be a problem with it being disbursed to do want needs to be done and his intention is to find out what is going on and what can they do to help the situation to help to improve because he is a certified Minority Contractor and he had done everything that anybody had asked him to do, and he knows that a lot of times when he goes down to become a worker in the City of Houston and someone says that he has to wait until next year and he tells that they have something going on right now and he knows that they need to have qualified worker in there and he is told that they cannot even bid or look into the projects and he knows that is supposed to be public knowledge on what is going on in their communities but it does not go down like that and a lot of times they get resistance from people that should be helping them, he is wondering if these contractors are working with community based organizations or are they just doing business as usual and his thing is to improve communication. Council Member Robinson absent.

Members of Council questioned Mr. Underwood.

Rev. Willie Davis, 3838 North Braeswood Blvd., 77025, (713)204-4250 appeared and stated that debate is good and the division is not and he is here again as he was before and the point that he would like to make, it has nothing to do with debating LGBT, the life style of people and when the ordinance was going through from the previous administration as a uniformed service Member of the United States Army, Mayor Pro Tem and others, he defended the peoples right to live the way they want to live, this is not the argument of the pretensions LGBT, this argument is based on the protection of women, he had heard the Mayor Pro Tem quote numbers and he does disagree with those numbers regarding other defenses and there are numbers to disprove that and here is the point that he wants to make is the Will of the City of Houston members voted on the Ordinance regarding the protection of women and not discriminate against LGBT people and that is not the issue, the issue was to protect women, the City voted which is the will of the people and there are people around this table who would argue the voters right act and the power of the

right of people to vote and that your vote is your voice and the will is the fact that the Chief went to Austin on the behalf against the protection bill that defends the will of the citizens of Houston and that is his concern. Council Members Davis, Boykins, Martin, Le and Knox absent.

Mayor Turner stated that this is his opinion, he has the right as the Police Chief to express his public safety opinion just because he disagrees with him does not mean that he needs to come up here and say to sit him down and the other thing he wants to make clear what is up in Austin is not the same thing that was voted on here, they are not the same thing, so he wants to keep what happened in Houston in Houston but what was presented up in Austin is not the same thing and just like he has respect for his right to have his opinion, he has the right as the Police Chief to express his view.

Members of Council questioned Rev. Davis.

Mr. Lance Hardy, no address, (832)352-2461 had reserved time to speak but was not present when his name was called Council Members Davis, Boykins, Martin, Le and Knox absent.

Mr. Dennis Greer, 4906 Gammage St., 77021, (713)837-8715 appeared and presented information for each of the Council Members and stated that he does not want to do a lot of talking and he just wants them to look over the documents that they have before them and after reviewing them to please correspond with him if they do not mind. Mayor Turner, Council Members Boykins, Martin, Le and Knox absent. Mayor Pro Tem Cohen presiding.

Mr. Collie Wilson, 10 South Briar Hollow Ln., 77027, (713)291-8605 appeared and stated that he is not here to speak about the bathroom bill even though he is opposed to it because of the economic impact it would have on the City, he is 86 years old, he is Veteran and he lived in Houston for 42 years, they moved here in 1975 and in the last 42 years there have been major changes and he is here to speak about the Police Department and not in a negative fashion, he thinks that the City has an excellent Police Department, they have had good succession of good Police Chiefs, there have not been a Ferguson, Missouri, they have not had a Minneapolis or a Chicago and he hopes that we never will have one, he wants to recommend some things that might make the Police Force better, number one, we are dramatically understaffed and he knows that everyone here knows that because he can drive around here for days sometimes weeks at a time not seeing a Police Vehicle and that needs to be changed and there needs to be two people in the car for safety, secondly, we need more body cameras and he knows that is something of a controversial issue and he that it could protect the Police Officers, not so much that it protects the public and when there is a record made by a body cam as to what happen in a confrontation in his opinion they have an accurate record but they also have a situation where the perpetrator recognizes that he behaves inappropriately that is going to be recorded and that should help to mitigate that kind circumstance and the third thing he thinks they should do is the cameras at the intersection and he know they have had that before and that is another controversial issue. Mayor Turner, Council Members Davis, Boykins, Martin, Le and Edwards absent. Mayor Pro Tem Cohen presiding.

Members of Council questioned Mr. Wilson.

Ms. Dorothey Parker, 10910 Southview, 77047, (713)569-2168 appeared and stated that the first thing she would like to speak about is her car because she been harassed by her car that is in

her driveway and there are people that work for the City, she had received a lot of certified letters along with a lot of phone calls, she pays her taxes, the car is a Mercedes and they want to take it from her and she is trying to see what she can do to stop the harassments of the People in the City that controls that, she gets calls every week and letters every week, the car is covered up until she gets enough money to fix it up and she wants the harassments to stop and the seconded thing she would like to speak about is the water issue and the guy that put her fence in accidentally hit the water line, she had to pay for her water line and her next door neighbor water line and it cost her a lot of money because the line was so close together, she called the City and told her that they would correct the bill, she sent the bill once and they sent it back and then she discover she had a leak in her tank and she had sent four same documents in all this time and everytime she sends it in they tell her that they did not get it and she wants to know what the Water Department is doing. Mayor Turner, Council Members Davis, Boykins, Martin, Le and Edwards absent. Mayor Pro Tem Cohen presiding.

Mr. Daryl Barnes, 6606 Lockwood Dr., 77028, (713)385-3576 appeared and stated that he would like to speak about what was important to himself as a person and as a family, one is the gentrification of the Black Community, point two is basically the Justice of the Peace Court at this point should be thought of at this point as a pauper's court and should be looked as unconstitutional because it lacks any safeguards whatsoever, it acts like a buffer between the rights of the person being evicted and for those who have power, influence and money and number four, is lack of economic base in the Black Community, the displacement of their own communities and be has it may, this is not what he is here for today, he does not have time and what he actually here for is that between June 12, 2012 to now, they have been evicted 5 times, not for nonpayment of rent, not for causing problems but for things for calling the Police or for things like filing a lawsuit and if you file a lawsuit against a Police Officer or a Constable Officer it can very well cost you, your life, they have suffered through a campaign of stalking, harassment, hunting, shutting down their cable, shutting down their phones, they have been shot at and they have called HPD 50 to 60 times only to be threaten to get arrested themselves and at this last stage which he thinks when they are fearful of what has been done and they do not want to be exposed and they would do what they have to not to face the law. Council Members Davis, Boykins, Martin, Le and Edwards absent.

Council Members Davis, Boykins and Martin absent.

Upon questions by Mayor Turner and Members of Council questioned and Mayor Turner advised him to speak with the Director Juliet Stipeche, as is the Director of the Mayor's Office of Education.

Mr. Rickey Tezino, 4422 Weaver Rd., 77016, (832)233-3174 appeared and stated that his main focus is now with the homeless and he has been working with the Prison Ministry and the homeless and is a big deal to him and it should be a big deal with everyone and every dollar given to the homeless, they should give \$2 dollars and he was a field operations manager with the 2000 Census when he worked at the Houston Community College and they told him that they have to get the numbers because if they do not get the money that the City is losing and they could not get some of the people because of location and logistics and the census is coming again in 2 ½ years because they need a preprint and to do something to count those 40,000 homeless because that is an extra Representative and he is begging for the City to looking into that, they need a Committee and he is happy to work on it since he is near retirement.
